To whom it may concern,

On behalf of Phillips and Jordan Inc. and the Southland Water Resource Project our team has elected to **withdraw** our unsolicited proposal from South Florida Water Management District procurement.

After further review of the District Public-Private partnership process we feel that the process as prescribed and enacted does not apply to the Southland Water Resource Project.

Please remove the project from all District Governing Board agendas and meetings for the month of September, and going forward, until requested on behalf of the project team.

As we have successfully done in the past on the C-51 project, when the time comes for District input, we will proactively engage South Florida Water Management District and work through the typical engineering processes.

As we continue to move forward with the project, we respectfully request that the Letter of Project Identification be executed and delivered in a timely manner.

If anyone has any questions or comments, please feel free to reach out to me at any time.

Thank You,

**Matt Eidson**
